

Event timers are not created equal.

Mat timing system
136 lbs

Wireless Orbiter
System 28 lbs on
wheels

In fact, the Orbiter Timing & Lap Counting system is so lightweight and easy to use it sets up in 3 minutes, with no separate boxes, antenna cables, or mats. Just turn it on and it is event ready. You be the judge: an elegant design with intuitive software that delivers instant results on a weather proof ToughBook display; Or a wet dirty carpet? We use proven wireless technology and timing chips for feet, ankle, wrist or bib. Independent tests show Orbiter has greater time accuracy too. Call your Orbiter representative today at 253-627-5588 or email info@Orbiter.com An easy call.

The box to the left is obsolete. Intuitively this makes sense because your iPhone does more than this big heavy box.
